Bore Hole Log

To: MIKMAK
 P.O. Box 802
 Redcliff Montana

Project Number: MH-01-1298
 Report Number: 3
 Report Date: 4/23/01
 Contractor: Drill Co.
 Drill Method: Drill Stem auger
 Technician: Drew
 Logged By: Mike
 Ground Elevation: 99.1
 Drill Date: 4/16/01
 Bore Hole Number: 12
 Location: Downtown
 Hole Depth: 27.5 meters
 Page: 1 of 2

Project: Slope stability investigation

Meters	Moisture/Limits					Soil Description	Symbol	Sample	Headspace Vapor					Well
	■ Liquid Limit (%)	● Natural Moisture (%)	▲ Plastic Limit (%)						N	10	100	1K	10K	
	%	10	20	30	40									
1						0 to 1 - BEDROCK-undifferentiated								:sand to 9 meters :50 mm solid schd. 40 PVC to 17 meters :bentonite to 24 meters :50 mm 0.01" horizontally slotted schd. 40 PVC from 17 meters :Water level on 5/24/01, 15 meters :Well depth 24 meters
2						1 to 1.8 - SANDSTONE coarse to medium								
3						1.8 to 3 - TILL-oxidized traces of fine sand								
4						3 to 5 - TOPSOIL OR ORGANIC SOIL								
5						5 to 8 - MUDSTONE								
6
